Subject: RE: Opening caveat for PFAS data

Understood. That timing will let the language review/polish settle before we replace it on the Explorer.

I don't feel like it is critical to update the tool now – we can mention at demos that language is being worked on. If a some point we need it to be there, we can shift things as needed.

Subject: RE: Opening caveat for PFAS data

We are not expecting to continually update the demo National PFAS Data Explorer, but:

- 1) Is it important for internal demonstrations that we replace the caveat (in email below) and the edits in Samantha's WORD file in the demo version?
- 2) If so, should we wait until all edits in Samantha's WORD file are reviewed and approved by ORD+OC?

Edited the text a bit. Includes edits to the black text as well.

Subject: Opening caveat for PFAS data

Hi Sam – this is the opening caveat for the PFAS beta tool as it stands now. I wanted to offer some suggested changes. I'm sure you can probably wordsmith it better than I did. - Mike
